Dive Description/Sketch:

Set 2 Marker buoys near the sand/rock interface of the breakwall, approximately 25 yds apart. Nearest to one marker buoy, descend to 10 feet deep on the wall, with partner at arms length, deeper, and facing the furthest marker buoy. Conduct a search pattern parallel to the breakwall, in between marker buoys, with topmost diver maintaining the 10 foot depth. Advance the pattern by moving the topmost diver below the bottom diver. Reverse direction and continue the parallel pattern between the buoys, with topmost diver maintaining the depth. Reverse direction and advance the pattern deeper in a similar fashion.

Coverage Assignments:

1700 LG-7, LG-8 (Reid, Mathison) Off the beach to Sta.35

1700 LG-6 (Farnell) Off the beach to Sta. 21

1730 RB-1, RB-2, RB-3 meet at the East End
