Marine Safety Division

TRAINING ACTION PLAN

"C" Shift Night Dive

Operational Period

Date From: 11/13/2026
Time From: 1730 Hours

Date To: 11/13/2026
Time To: 1930 Hours

Approved By Incident Commander:

Rank, First Initial, Last Name

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: C-Shift Night Dive	2. Operational Period: Date From: 11-13-2026 Date To: 11-13-2026 Time From: 1730 Time To: 1930

3. Objective(s):

-This drill is to simulate a missing lobster diver on the break wall. Divers will utilize a parallel search pattern with advancing depth to search a prescribed area.

-Set 2 Marker buoys near the sand/rock interface of the breakwall, approximately 25 yds. apart. Nearest to one marker buoy, descend to 10 feet deep on the wall, with partner at arms length, deeper, and facing the furthest marker buoy. Conduct a search pattern parallel to the breakwall, in between marker buoys, with topmost diver maintaining the 10 foot depth. Advance the pattern by moving the topmost diver below the bottom diver. Reverse direction and continue the parallel pattern between the buoys, with topmost diver maintaining the depth. Reverse direction and advance the pattern deeper in a similar fashion.

- Follow Directions of Rescue Boat Operator and Deckhand on and around the rescue boat
- Controlled descent to planned depth
- Conduct Search pattern per agency protocols
- Controlled Ascent with awareness of surroundings
- Surface with 500 PSI minimum

4. Operational Period Command Emphasis:

- Participants must attend the the Safety briefing
- If an accident should occur the IC shall be notified immediately. Use "EMERGENCY RADIO TRAFFIC" as necessary
- Breathing Compressed air is dehydrating, hydrate pre and post dive.
- Utilize safe practices in carrying out the mission
- Employ clear communication

General Situational Awareness

- Expected depth of 50 feet.
- Expected surge

5. Site Safety Plan Required? Yes ☐ No ☒

SAFETY MESSAGE/PLAN (ICS 208)

1. Incident Name:	2. Operational Period: Date From: 11-13-2026 Date To: 11-13-2026
"C" Shift Night Dive	Time From: 1730 Time To: 1930

3. Safety Message/Expanded Safety Message, Safety Plan, Site Safety Plan:

- Participants must attend the Safety briefing
- Any Participant my suspend the drill due to safety concerns; at the discretion of the Dive Officer the exercise may be t terminated
- If an accident should occur notify the IC or Instructor immediately. Use "EMERGENCY RADIO TRAFFIC" as necessary
- Dive equipment / gear must be in excellent working condition in order to participate in exercise
- Divers shall inspect their buddy's equipment prior to entering the water
- Participants will act in a responsible manner at all times during this exercise
- Divers will maintain buddy discipline with NO EXCEPTIONS
- Never hold your breath while diving on compressed air
- Always make eye contact with the deckhand when approaching the Rescue Boat
- Follow instructions from the deckhand when embarking / disembarking the swim step
- Clear you ears early and often
- Participants on SCUBA will return to the surface with not less than 500 psi at the completion of the dive exercise
- Table profiles will be monitored pre and post dive
- Always maintain situational awareness, IF YOU SEE SOMETHING SAY SOMETHING! Our safety is everyones concern.
- If you get separated from your buddy search for no more than a minute, then safely surface.

Dive Description/Sketch:

Set 2 Marker buoys near the sand/rock interface of the breakwall, approximately 25 yds apart. Nearest to one marker buoy, descend to 10 feet deep on the wall, with partner at arms length, deeper, and facing the furthest marker buoy. Conduct a search pattern parallel to the breakwall, in between marker buoys, with topmost diver maintaining the 10 foot depth. Advance the pattern by moving the topmost diver below the bottom diver. Reverse direction and continue the parallel pattern between the buoys, with topmost diver maintaining the depth. Reverse direction and advance the pattern deeper in a similar fashion.

Coverage Assignments:

1700 LG7 (Oca) Off the beach to Sta. 35
1700 LG6 (McColl) Off the beach to Sta. 21
1700 RB3 Meet at station 21. Load gear and crew onto RB1
1730 RB1, RB2 meet at the East End
1700-1800 LG3 cover the beach.
